Altea

Urbanization:
Altea Hills

Bedrooms: 6

Bathrooms: 6

Build: 486m²

Plot: 1159m²

Reference: 2991

This unique villa of bespoke modern design is one of the masterpieces of the famous architect Ramon Esteve. The villa is built in white polished concrete and finished with white Carrara marble and natural wood, creating a minimalistic exterior and a bright but warm interior. The villa is located in a quiet street in the secured residential area of Altea Hills, from where it enjoys beautiful panoramic sea views. On the main floor, there is a bright living room with fully equipped kitchen. Motorized sliding windows allow a direct access from the main living area to the south-facing terrace with large infinity pool. On the first floor there are four bedrooms, all with en suite bathroom. The master bedroom also has a large dressing room. Downstairs there are two more guest bedrooms, each with en suite bathroom. One of the bedrooms also has an external entrance. There is also a laundry room, a large garage and lots of storage space. The villa benefits from central air-conditioning, a ventilation system, electric stores and a domotica system.
