These modern new build villas are currently being built on a location with beautiful panoramic views over Polop, Altea, the mountains and the Mediterranean Sea. The villas feature an optimized single-level layout with a combined living and dining area, an open-plan kitchen, three bedrooms and two bathrooms. Both the living room and the master bedroom have access to the partially covered terrace with garden area. The villas are equipped with built-in wardrobes, electric shutters, air conditioning and there is parking space on the plot for one car. There is access to a communal pool nearby, but an optional individual pool can be built next to the open terrace. There is also the possibility to provide the house with a roof terrace at an additional cost.
