This spectacular house is situated in the charming narrow streets of old Altea, near the famous church square and the surrounding shops and restaurants. On the ground floor the house has two comfortable bedrooms and a bathroom. The eye catcher is, of course, the heated indoor pool with inlaid mosaic, natural rocks and beautiful Italian marble. The splendid views can be fully enjoyed thanks to the sash windows that can be fully opened. A summer kitchen makes this into the perfect space for entertaining friends and family in a unique and very stylish way. Downstairs there is a spacious billiard room, a sauna room and a wine cellar that was carved into the rocks. Nestled under the rooftop of the house, with its attractive wooden attic beams, is the top floor with a spacious living and dining area. Large sliding windows lead to a pretty terrace with panoramic views, all the way from the rock of Calpe to the Albir lighthouse. From dawn to dusk, the breathtaking views make this terrace into the perfect place for both for breakfast and aperitif. Next to the living room is a separate kitchen with a practical laundry room, both fully equipped with Miele appliances. On this floor is also a guest toilet and a spacious master bedroom with a charming dressing room and an elegant en suite bathroom. This is without a doubt one of the most complete and comfortable townhouses to be found in Altea. The varied choice of materials together with many small but unusual details create a truly unique atmosphere.
