This penthouse is part of an architecturally special apartment building in the Sierra de Altea, on the flanks of the Bernia Mountains. From this elevated location there are beautiful panoramic views over the bay of Altea and the Aitana mountains. The apartment has two bedrooms, a bathroom with Jacuzzi, guest toilet, and a combined living area with a fully equipped open kitchen. Both this living area and the master bedroom open onto a south-oriented, open terrace with beautiful sea views and awnings. By using large sliding windows, the interior spaces flow seamlessly onto the terrace. From this terrace there is an external spiral staircase to the open roof terrace of 115 square meters, which also enjoys the same views. Included in the sale is a closed private garage with space for two cars equipped with an automatic gate, and a 95 square meter large storage space that has been transformed into a loft. It could be used as a guest apartment or as a hobby room. This space has a bathroom, kitchenette, and has access to a small garden with privacy. Both the apartment and the loft space are equipped with heat pump air conditioning. The apartment building has a communal swimming pool and a small gym.
