This villa is located on a spacious corner plot in a premium location in the Sierra de Altea. The villa has access from the street by car through an automatic gate with parking. From this same level there is access to the upper floor of the villa, where the living and dining room, the kitchen with storage room, guest toilet, and the master bedroom with en-suite bathroom are located. This villa is therefore very practical in use as it is possible to live on one same level. The living room has access through sliding windows to the covered terrace, with beautiful sea views and a view of the private swimming pool and sun terrace below. Via a staircase there is access to the lower living level, where there are two more bedrooms, a bathroom, and a leisure or gameroom. This room offers the possibility to create an additional bedroom. The bedrooms open onto the terrace with the swimming pool, outdoor toilet and outdoor shower. There is also access from here to an indoor garage with space for two cars. The villa is ready to move in and is equipped with air conditioning and on the plot there is parking for at least five cars.
